

PRECISION PLASTICS ENGINEERING, MACHINING
AND FABRICATION FOR TECHNOLOGY, MEDICAL,
INDUSTRIAL, CHEMICAL AND AEROSPACE ENTERPRISES

A small sample of our solutions:
 Process Tanks
 Cleanroom Equipment
 Laboratory Fume Hoods
 Double Containment Systems
 Chemical Delivery Systems
 Specialty Tables, Cabinets and Sinks
 Transport Carts
 Automated Systems

APEX PRODUCES THOUSANDS OF DIFFERENT PRODUCTS FOR A WIDE VARIETY OF APPLICATIONS EVERY YEAR – FROM SMALL PARTS, TO LARGE COMPONENTS, TO FULLY INTEGRATED AND AUTOMATED SYSTEMS.

World-class Manufacturing Professionals

Apex Industries was founded in 1997 dedicated to producing plastic parts and components for high-technology companies. Since that beginning, other markets have emerged, revealing that many Apex customers need more than just “parts” – they require integrated solutions to a wide variety of manufacturing problems, and component redesign to facilitate greater efficiencies of their equipment or processes.

Apex is an industry-leading manufacturing company specializing in the design, prototyping and production of mission-critical components and assemblies. Our team of engineers, craftsmen and project managers work to create a broad array of products – from the smallest gears and nozzles, to specialty tanks and integrated manufacturing systems. While we specialize in plastics, we also incorporate metals, composites, and automation into our designs.

Apex is a solutions-driven company structured to identify needs, engineer solutions, and manufacture working systems for our customers. Every year, Apex produces thousands of different products. We are equipped to mass-produce, manufacture small quantities, or deliver a single, unique item.

Precision Capability

Our use of state-of-the-art CAD/CAM tools, CNC machinery, a sophisticated ERP system, and precision verification and documentation protocols, allows us to work closely with some of the world’s leading manufacturers to supply complex OEM components and completed assemblies.

Broad Experience

We are experts at working with many different plastics in diverse forms. From high-tolerance machining of components to welding, integration, and testing of complex assemblies and equipment, Apex has the experience necessary to serve a wide variety of industries.

Quality That’s Above and Beyond

Apex is an ISO compliant company with craftsmen trained and certified to meet German Welding Federation standards (DVS). Combined with our CMM measurement tools, these benchmarks help assure that all of our products are of the highest possible quality.

A Passion for Customer Satisfaction

Every member of the Apex team is responsible for customer satisfaction.

Our focus is on keeping our commitments and striving to be the company you want to do business with. We invite you to contact us and see for yourself the excellence we achieve every day.

INDUSTRIES SERVED

Apex has years of experience working with customers in a wide variety of industries:

Aerospace and Defense	De-ionized Water Systems	Nuclear
Anodizing	Display/Exhibit	Petrochemical
Aqua-culture	Electronics	Photo Processing
Aquariums and Zoos	Fishing	Pharmaceutical
Battery	Food Handling/Equipment	Plating
Beverage	Fuel Cells	Pool and Spa
Bio-fuels	Galvanizing	Printed Circuit Boards
Biotech	Hospitals/Healthcare	Pulp and Paper
Carwash	Laboratory Sciences	Semiconductor
Chemical Processing	Landfill	Silicon Wafer Manufacturing
Computer Peripherals	Marine	Solar/Photovoltaic
Construction	Materials Handling	Transportation
Clean Room Products	Medical	Waste Treatment

MATERIALS KNOWLEDGE

We are experts at working with many different materials in diverse forms including sheet, rod, pipe, tube, duct, bar, and other profiles.

ABS	Kydex®	Plexiglass®	PVDF
Acetal	Kynar®	Polycarbonate	Teflon®
Acrylic	LDPE	Polymide	Torlon®
CPVC	Lexan®	Polypropylene	UHMW-PE
Delrin®	Nylon	Polystyrene	Vespel®
ECTFE	PCTFE	Polysulfone	XLHDPE
ESD Coated	Peek®	Polyurethane	
FEP	PET	PPS	Aluminum
FM4910	PETG	PTFE	Stainless Steel
Halar®	PET-P	PVC	Titanium
HDPE	PFA	PVC-C	Unique Composites
